## SUMMARY

BSc (Hons) Computing graduate with First Class Honours, specialising in full-stack web development, systems administration, and data-driven platforms. Combines a strong technical foundation with hands-on experience in operations, inventory control, and supplier coordination. A fast learner who adapts quickly to new tools, environments, and business systems, and enjoys taking on varied, hands-on responsibilities. Seeking a role in software/web development, systems administration, operations or a management capacity where technical skills and adaptability can deliver immediate, practical value.

## EDUCATION

- Bachelors of Science (Hons) in Computing** · *University of Greenwich, UK & Oshwal College, Nairobi* **Completed May 2026**
- First Class Honours across all modules. Batch Representative throughout the degree.
- A-Level / IGCSE (Year 12)** · *CGHU Secondary School, Nairobi* **Completed 2022**
- Highest in IT (Grade A); Certificate of Academic Excellence in Information Technology.
- O-Levels / GCSE** · *Arya Vedic Academy, Nairobi* **Completed 2021**
- Grade A\* in Information Technology; multiple participation and achievement awards.

## EXPERIENCE

- Stocks & Operations Manager** · *Vintage Liquor LTD · Nairobi · Full-Time* **April - September 2025**
- Maintained daily stock control and inventory records across 100+ product lines, reducing stock discrepancies through systematic tracking and reconciliation.
  - Generated invoices and managed bookkeeping entries, keeping financial records audit-ready and accurately reconciled daily.
  - Resolved 3–4 supplier and operational issues per week, coordinating purchase orders and deliveries to minimise disruption.
  - Represented the business at trade and networking meetings with suppliers and competitors, strengthening commercial partnerships.
- Graphic Designer & Social Media Content Creator** · *Blue Apple Africa LTD · Nairobi · Internship* **Feb - April 2024**
- Designed social media campaign graphics for 4+ corporate clients, including GA Insurance; all assets approved and published on time.
  - Introduced vector-based design workflows in Adobe Illustrator and Photoshop, improving asset reusability across 7+ client brand identities.
  - Managed 3–4 simultaneous design briefs per week, translating brand requirements into polished, print-ready assets on schedule.

## PROJECTS

- AfriSpace: Billboard & Outdoor Advertising Marketplace** · *Final Year Project · Solo Developer* **Nov 2025 - April 2026**
- PHP, MySQL, Tailwind CSS, Leaflet.js, OpenStreetMap API, M-Pesa Daraja, dompdf, PHPMailer*
- Built a multi-role billboard marketplace with CRUD dashboards, booking workflows, and automated PDF invoicing.
  - Integrated M-Pesa STK Push with callbacks and payment polling for real-time transaction confirmation.
  - Developed a GIS billboard map with clustering, satellite layers, and geolocation-based filtering.
- UniScope: University Magazine CMS** · *BSc Group Project · Sum Master & Lead Developer* **Jan 2026 - March 2026**
- PHP, MySQL, Bootstrap, PHPMailer, PDO, PclZip, Agile/Scrum*
- Developed a secure role-based access control system with CSRF protection and bcrypt authentication.
  - Led a 6-member Agile/Scrum team and delivered all planned sprint objectives on time.
  - Optimised database performance using runtime schema migration checks and spatial indexing.
  - Resolved critical database corruption during migration with full data recovery and zero data loss.
- NexPesa: Personal Finance Dashboard** · *Personal Project · Sum Master & Lead Developer* **Jan 2026 - March 2026**
- React, TypeScript, Supabase, PostgreSQL, Recharts*
- Built a React finance dashboard with expense tracking, analytics, and financial goal management.
  - Implemented Supabase Auth and Row Level Security for secure per-user data isolation.

## TECHNICAL & PRACTICAL SKILLS
